SUMMARY

Cybersecurity-focused Computer Science undergraduate specializing in Information Security with hands-on experience in **penetration testing, vulnerability assessment, CTF challenges, and Azure security fundamentals**. SC-900 certified with foundational knowledge of identity, compliance, and cloud security controls. Skilled in identifying security flaws through dynamic analysis and recommending mitigations aligned with secure engineering principles. Passionate about security research, bug discovery, and strengthening real-world systems.

EDUCATION

Chandigarh University

B.E. in Computer Science Engineering (Hons.) Information Security ; CGPA: 8.50

Punjab | India

August 2023 - 2027

Kota Career Sr. Sec. School

Class XII (RBSE Board) ; 91.00 %

Rajasthan | India

June 2021 - 2022

SKILL-SET

- **Programming** Python, C/C++, Java, SQL.
- **Security Tools** Nmap, Wireshark, Burp Suite, Linux.
- **Cloud & Identity** Microsoft Azure, SC-900, Identity & Access Management, Defender Concepts.
- **Security Domains** Vulnerability Assessment, Web App Testing, Network Analysis, ISO 27001 Controls.

PROJECTS

Capture The Flag (CTF) Participation

Nov 2024

- Solved challenges in web exploitation, cryptography, reverse engineering, and privilege escalation.
- Conducted attack surface mapping and vulnerability chaining to escalate privileges in lab scenarios.
- Practiced log analysis and network inspection for identifying malicious patterns.
- Documented exploitation steps and mitigation strategies for identified vulnerabilities in lab environments.

Personal Portfolio Website – Person-Sphere

Dec 2023

- Designed and deployed a responsive portfolio website showcasing skills, projects, and contact information.
- Ensured dynamic UI/UX with interactive sections and smooth navigation.
- Integrated GitHub and LinkedIn for enhanced visibility and professional outreach.

Real time-based Volume Controlling with Hand Gesture

Oct 2023

- Developed a Python-based system using OpenCV and MediaPipe to control system volume via hand gestures.
- Real-time hand tracking with distance-based volume control and optimized performance.
- Enhanced accessibility and achieved 95% gesture recognition accuracy.

WORK-INTERSHIP EXPERIENCE

CYBER SECURITY INTERN | InternsVeda

MAY 2025

- Conducted vulnerability assessments and assisted in penetration testing of a web application.
- Validated identified vulnerabilities in controlled environments to secure design improvements.
- Used Nmap for attack surface mapping and Wireshark for network traffic inspection.
- Contributed to mitigation recommendations aligned with ISO 27001 and secure engineering practices.

CERTIFICATE +ACHIEVEMENTS

- Microsoft Certified: Security, Compliance, and Identity Fundamentals (SC-900).
- Cybersecurity Internship Completion – InternsVeda.
- Awarded Certificate of Service (1 Year) – Rotary Club | National Service Scheme (NSS).
